

NSF Fund Project

Our NSF funded project focuses on the design, development, and evaluation of informal science education (ISE) programs and educational media for use in rural libraries in drought prone areas of the Great Plains.

Project Goals

The goals of the Spotty Rain Campaign are to share resources for:

- Managing drought risks
- Encourage community participation in volunteer drought monitoring

Spotty Rain Campaign

*Enhancing the Capacity for Rural Libraries
to Engage the Public in
Drought Monitoring*

Make It Rain App

Scan the QR code on the right to access our App for learning how to visualize and interact with the "Making it Rain" App.

How to interact with the App:

1. Open the Zappar App
2. Point your device to the Zap code above.
3. Interact with menu items by tapping and selecting buttons such as "Stop" to stop the rain effects, Home button for the project's website homepage, Twitter button and Facebook button takes you to the project's Twitter page and Facebook page respectively.

Please note: If you do not have the Zappar App installed on your mobile device, you will be directed to download it from either the Apple App Store or Google Play. The Zappar App is available for iPhone, iPad, iPod Touch and most Android phones and tablets.
